

# *IAM Rider Skills Days*

## *Croft Circuit*

*Wednesday 27th August 2014*

Croft Circuit in North Yorkshire is a new circuit for IAM Rider Skills Days. Set in beautiful countryside a few miles south of Darlington this 2.1 mile track has some challenging corners and extensive straights which give a really broad spectrum of experiences to help riders develop their skills.

This full day event offers sessions of circuit riding under the guidance of an experienced IAM instructor interspersed with theoretical input to help you enhance your riding. The instructor will develop your observations and your techniques of bike control so that you are able to make rapid and smooth laps of the circuit. You will work on positioning, braking, gear choice and acceleration technique. Repeated laps of the same circuit allow you to experiment with different variations of approach, and demonstrate how critical the right choice is to making the ride feel absolutely right. It doesn't have to be done at fearsome speeds. You can enjoy the Skills Day at your own pace and your instructor will work with you in whatever way suits you best. After

booking, we shall ask to you for details of your previous experience so that we can ensure you get instruction at a level most beneficial to you. The circuit environment allows you to experience the subtleties of your bikes handling. You are in a controlled space. The usual hazards associated with the public roads are entirely absent. The setting for Skills Day training is unique.

***The experience is invaluable!***
